

## Make Water Fun

Drinking water provides huge benefits to your health such as hydration, lessening the chance of overheating, lubrication and cushioning of your joints, and to get rid of waste of through urination, and sweat.

### What you need:

- Soda Stream Bubblers
- Soda Stream Bubblers bottle
- carbonation cylinder
- still water
- flavor drops if desired

### Instructions:

1. Place the Soda Stream Bubbler on a sturdy surface.
2. If present, remove the protective plastic around the cap and unscrew the cap from the carbonation cylinder.

## Caution!

Do not puncture or cut the carbonation cylinder as the cylinder may explode.

3. While securely holding the front of the Soda Stream, grasp the back panel from the top and pull to remove the back panel.

4. Screw the top of the cylinder into the cylinder holder. Tighten firmly but do not force.
5. Replace the back panel.
6. Fill the bottle with water to the indicator line.

## Caution!

Do not overfill the bottle as it may damage the machine.

7. Firmly insert the bottle into the Soda Stream Bubbler to automatically lock into place. There is a gap between the bottom of the bottle and the machine.
8. Press the button on the top of the Soda Stream Bubbler and hold for 1 to 2 seconds. Repeat until desired carbonation is reached, usually 4 to 7 times.
9. Securely hold the bottle and slowly remove it from the Soda Stream machine.

10. If desired, add flavor drops.

11. Enjoy!
